

A SCHOOL SYSTEM'S GOAL TO IMPROVE THE STUDENT EXPERIENCE

A CASE STUDY BY ECSELL EDUCATION

THE OVERVIEW

A school system had a simple, but profound, goal – **to provide a positive experience for all students, faculty and administration.** They partnered with Ecsell Education to equip their leaders, teachers and coaches with the knowledge & tools necessary to achieve success. Through surveying students and faculty with state-of-the art methods, and then educating on how to foster a trust-based yet challenging learning environment, the school system developed measurable improvement in their students' overall experience.

"I KNOW I'M BETTER AT THIS SUBJECT BECAUSE OF THIS TEACHER"

YEAR 1

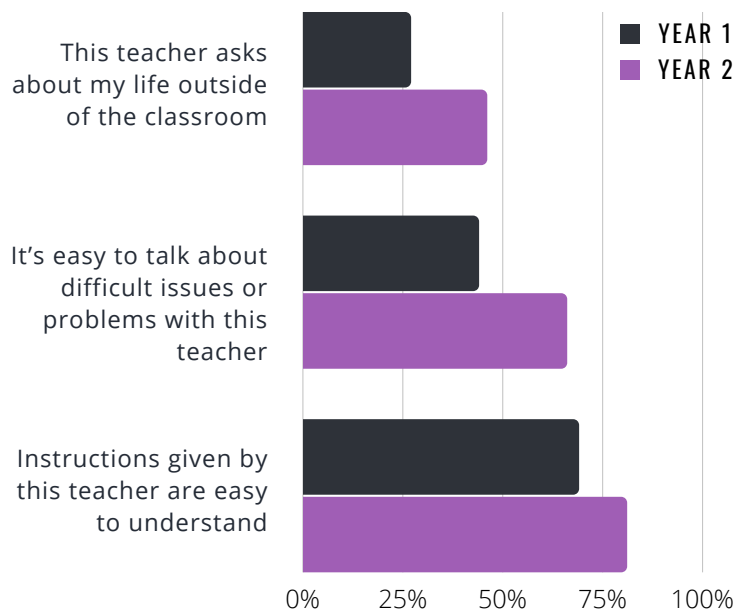

5 out of 10 students agreed with this statement

YEAR 2

STUDENT SURVEY FEEDBACK

ECSELL EDUCATION

We help schools measurably improve the experience of their students. Through our surveys, supporting resources and continuing education, a school's leaders, teachers, and coaches learn where they excel and how they can grow. And as they improve, the school community improves, so that students can learn, develop and thrive.

"[MY TEACHER] HAS A REALLY POSITIVE ATTITUDE AND SPEAKS TO US LIKE HUMAN BEINGS. HE MAKES ME FEEL COMFORTABLE IN THE CLASS ENVIRONMENT AND EXCITED TO COME TO CLASS AGAIN."
